<b>Question</b>	<b>Answer</b>
<b>1.</b> A friend of mine has eight sons each of whom has one sister. How many children does my friend have?	Nine. Eight sons and one daughter.
<b>2.</b> If your uncle's sister is related to you but is not your aunt, what is the relationship ?	She is your mother.
<b>3.</b> Can someone marry his brother's wife's mother-in-law ?	No because she would be his mother.
<b>4.</b> What was the largest ocean in the world before the Pacific Ocean was discovered	The Pacific.
<b>5.</b> Three very large women were walking down the street under one standard sized umbrella. Why did none of them get wet ?	It wasn't raining.
<b>6.</b> I made a purchase where each part cost \$1. I paid \$3 for 400. What did I buy ?	The 'house number' 400.
<b>7.</b> Yesterday I turned off the bedroom light and got into bed before the room was dark. The light switch was 3 metres from the bed. How did I do it ?	It was still daytime.
<b>8.</b> How can I make 30c with only two coins if one of the coins is not a 10c piece ?	With a 20c coin and a 10c coin. One coin, the 20c, is not a 10c piece
<b>9.</b> Our local barber likes foreigners to go into his shop. He said to me, "I'd rather give two foreigners haircuts than give a haircut to a local." What was his logic for this view ?	He earns twice as much cutting the hair of two foreigners than he does of one local.
<b>10.</b> Last month I got on a Sydney bound flight at Melbourne. It was very scary. About an hour after boarding the plane I saw very thick fog and then the engines stopped due to lack of fuel. Why didn't I die ?	The aircraft still had not taken off.
